

Notice Concerning Adult Incontinence Briefs

Please be advised that a preliminary injunction order was issued on December 27, 2010, by a Missouri U.S. District Court in *Hiltibran v. Dep't of Social Services*, Case No. 10-4185-CV-C-NKL, wherein the court enjoined the Department from refusing to provide adult incontinence briefs to those MO HealthNet participants over 21 years of age on the basis that such briefs are hygiene items. As such, if a prescriber believes that such adult incontinence briefs are medically necessary for the MO HealthNet participant, they should utilize the Department's exceptions process for requesting authorization. During the preliminary injunction, these requests will be granted upon a determination of medical necessity. If you have any questions or need assistance, please contact the MO HealthNet Exceptions Unit at 1-800-392-8030, option 2.
